

Hello,

How can you fucking call yourselves movie makers? Like I already said you should be put to death. All of you. You're nothing but whores and cheats. Transmorphers? Give me a break! Alien VS Hunters? Fuck you. I can't believe there are people in this world without a bit of decency. I hope you get sued by every company, until you end up in prison and get your asses fucked.

You even have the nerve to release a statement that it's a coincidence you released your version of Thor. Who fucking believes you? For years you've been leeching on major titles, and you think you have talent? You're nothing but pigs. No morality, no intelligence, just slimy pigs.

I reviewed your movie earnings. 700\$? Are you shitting me? I make that money by moving my mouse in Illustrator for 2 minutes. Pathetic brats.

You are the ones who should be killed publicly, as an example of ignorance and stupidity.

No, I'm not into movie making, I'm not a part of any company. I'm just a DECENT HUMAN, stunned by your idiocy.

Lame homosexual and dirty cunts. All you are, all you'll ever fucking be!

Die!

Have a good day,
Andrei
